

Flubaroo: The free tool that helps you quickly grade multiple-choice or fill-in-blank assignments.

<http://www.flubaroo.com/flubaroo-user-guide>

The above link has more info, but below are the basic instructions for using the Flubaroo script within Google Forms.

What does Flubaroo do?

1. grades your assignment
2. flags low-scoring questions
3. gives you the option to email each student their grade and/or individual feedback

How hard is it to use Flubaroo?

Five Easy Steps

[Step 1: Create an Assignment in Google Forms](#)

[Step 2: Create an Answer Key by taking the test in Google Forms](#)

[Step 3: Insert the Flubaroo script into your Google Form Response Spreadsheet](#)

[Step 4: Have Flubaroo grade the assignment](#)

[Step 5: Review the Grades and other data using the "Grades" tab at the bottom of your Google Forms Response Spreadsheet](#)

Detailed instructions and screenshots below. If you have any questions, see Mr. Roberts, or visit the Flubaroo website above.

Step 1: Create an Assignment in Google Forms

Create your assignment in Google Drive. I made the assignment:
6th Grade LCM/GCF and Distributive Property.

The screenshot shows a Google Form titled "6th Grade LCM/GCF and Distributive Property". The form includes a header with the title and a sub-header "10 Questions from Studyisland given paper/pencil on 09-18-13." Below this, there is a "Required" section with a "Period" dropdown menu showing "6th" and "7th" options. The "First Name" and "Last Name" fields are empty. The "Regular Math Teacher" section has radio buttons for "Waller", "Tate", "Hoy/Rice", and "Hein". The "1. LCM" question has radio buttons for "A", "B", and "C".

Step 2: Create an Answer Key by taking the test in Google Forms

**Notice I used the name "Key" so I could identify it later as the test key.

The screenshot shows the same Google Form as in Step 1, but with the "Key" name entered in the "First Name" and "Last Name" fields. The "Period" dropdown menu is now set to "6th". The "Regular Math Teacher" section has the "Waller" radio button selected. The "1. LCM" question has the "A" radio button selected.

Step 3: Insert the Flubaroo script into your Google Form Response Spreadsheet

After all the data has been inputted into the Google Form, **open the (Responses) spreadsheet.**

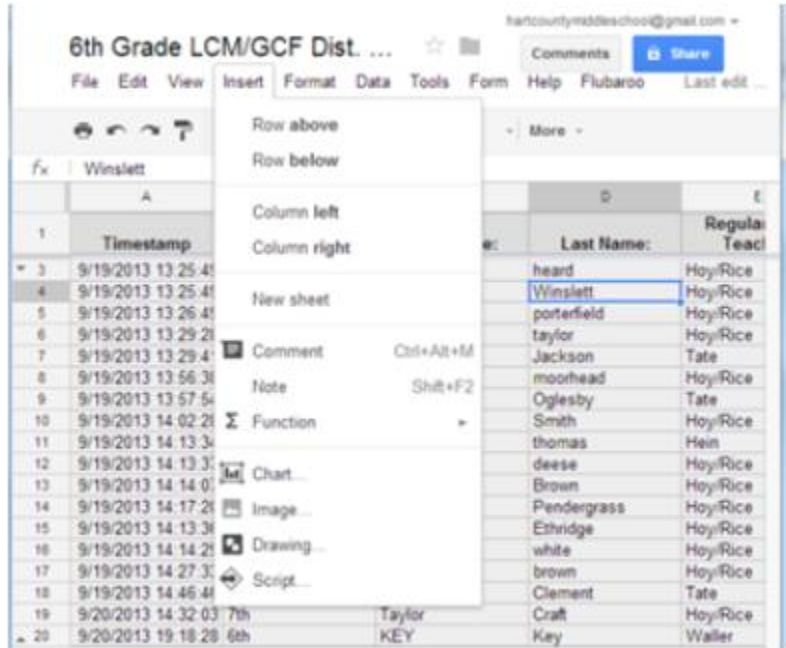

<input type="checkbox"/>	<input type="star"/>	6th Grade LCM/GCF Dist. Prop,09-18-13	me	Sep 18 me
<input checked="" type="checkbox"/>	<input type="star"/>	6th Grade LCM/GCF Dist. Prop,09-18-13 (Responses)	me	Sep 24 me
<input type="checkbox"/>	<input type="star"/>	6th Grade LCM/GCF Dist. Prop,09-18-13	me	Sep 18 me

On the spreadsheet you will see a Menu bar at the top with the word “Insert”.

Click “Insert” and it will drop-down with a menu. At the bottom is the word “Script”. **Click “Script”**.

Then you must type "Flubaroo" in the search box and Click "Search".

Flubaroo - Grading Step 1

Please select a grading option for each of the questions in the assignment. Flubaroo has done its best to guess the best option for you, but you should check the option for each question yourself.

Grading Option	Question
Identifies Student	Period
Identifies Student	First Name:
Identifies Student	Last Name:
Identifies Student	Regular Math Teacher:
1 Point	1. LCM
1 Point	2. DP
1 Point	3. LCM

Flubaroo - Grading Complete

Grading has completed! A new worksheet called 'Grades' has been created. This worksheet contains a grade for each submission, and a summary of all grades at the top. ** Note: The 'Grades' sheet is not meant to be modified in any way, as this can interfere with emailing grades. If you need to modify this sheet, copy it and modify the copy.

Tips: The very last row shows the percent of students who got each question correct, with overall low-scoring questions highlighted in orange. Also, individual students who scored below 70% will appear in red font.
